**Outside as beautiful as the inside**

The name says it all, CRESIDENT, spells CRESIDENT for artistic reasons, is the arc-shaped moon in its growth mode to become a full moon. Even our project, thus named, is a symbol of a continuous improvement in the various aspects of edifice construction. We just don't catch viewers' attention, we stay in their memory. Designed to stand out even among major landmarks, our edifices have class and grace befitting the connoisseurs of elegant lifestyle.

**Planning is in the details**

Based on the combined wisdom of ancient vastu and modern engineering, our layout plans make optimal utilization of minimal physical space so as to allow for maximum air and light in all their natural state. After all, we have been in the real-estate business for quite a long period of time. Many of our projects in the vicinity are proof of this.
